PROFESSIONAL SUMMARY

An IT professional for almost 10 years, on a path that started back in school and grew step by step through study, the WorldTecno project, and today leading the tech side of The Bubble Company, where I build B2B software solutions. Experience both as a freelancer on B2B and B2C projects for companies and startups, and as a full-time CTO covering software analysis and development, mobile apps, cloud infrastructure, cybersecurity and artificial intelligence.

Software Analysis & Design · Full Stack Development · Mobile & Desktop Apps · Cloud & System Administration · Cybersecurity · Artificial Intelligence · Consulting & Training

PROFESSIONAL EXPERIENCE

CTO & Full Stack Developer — Sep 2024 – Present
The Bubble Company — Parma, Italy
I lead the company's technical side: software analysis and development, mobile apps, cloud infrastructure, cybersecurity and artificial intelligence.

CTO/CIO, Full Stack, Mobile Developer & System Administrator — Nov 2021 – Sep 2024
The Bubble Company — Parma, Italy
I close my freelance business and join the company full-time.

Full Stack Developer — Sep 2019 – Jan 2020
milkrite | InterPuls — Reggio Emilia, Italy
A collaboration alongside my freelance work: front end for a machinery monitoring and diagnostics platform, with KPI dashboards and self-diagnostic tests.

CEO, CTO, Founder & Full Stack Developer — Nov 2018 – Oct 2021
WorldTecno (Freelance) — Parma, Italy
I turn WorldTecno into my freelance business: 10+ medium and large B2B and B2C projects for companies and tech startups across different sectors (energy, real estate, sport, manufacturing, fashion), carried out alongside university.

Full Stack Developer — Sep 2018 – Sep 2019
Voilà! Srl — Parma, Italy
A year of ongoing collaboration.

Web Developer — Jun – Sep 2018
3DPR — Parma, Italy
A summer collaboration.

Web Developer — Jun – Sep 2017
MF Labs — Parma, Italy
My first real professional experience, while continuing my university studies.
